

SMART HEALTHCARE MONITORING SYSTEM – DIAGRAM PACK

Overall Proposed System Architecture (Chapter 4)

Shows IoT sensors → ESP32 → Encryption → Blockchain → AI → User Dashboard

<< Insert diagram here >>

Layered Architecture Diagram (Chapter 5)

Illustrates IoT Layer, Edge Layer, Blockchain Layer, Application Layer

<< Insert diagram here >>

Data Flow Diagram (DFD Level 0) (Chapter 5)

High-level data flow between Patient, System, Blockchain, Doctor

<< Insert diagram here >>

Use Case Diagram (Chapter 5)

Actors: Patient, Doctor, Admin; Use cases: Upload Data, View Records, Search, Alerts

<< Insert diagram here >>

Homomorphic Encryption Workflow (Chapter 8)

Encryption → Computation on Ciphertext → Decryption

<< Insert diagram here >>

CNN–LSTM Intrusion Detection Architecture (Chapter 9)

Input → CNN Layers → LSTM Layers → Dense Layer → Output

<< Insert diagram here >>

Performance Graphs (Chapter 11)

Accuracy, Latency, Throughput, False Positive Rate

<< Insert diagram here >>
